**Conditions of Issuing Letters-of-Credit.**

AUDIT OFFICE, OTTAWA, Nov. 14, 1899.

SIR,—I have passed (Nov. 10) an application No. 114 from your department, for a letter of credit of \$200,000 in favour of the Deputy Minister and accountant.

Please request these officers to accept the following suggestions concerning their expenditure under this letter of credit:—

1. No payments should be made from any vote but "Civil Government Contingencies," for travelling expenses of employees whose services are paid from "Civil Government Salaries."

2. No temporary employees in the department should be paid without authority of Council. Instances, Messrs. Godwin, Robinson, Bedard, Scrim, &c.

3. Further advances should not be made to officers who have not accounted for previous advances within a reasonable interval. It might be well to adopt the interval prescribed for Civil Government advances, namely, one month after return from a trip.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, Nov. 22, 1899.

SIR,—Let me call your attention to the Order in Council of December 2, 1895, shown at page A-15 of my report for 1897-98.

This Order in Council provides that "all departmental employees at Ottawa (other than those extra clerks and messengers who are paid from Civil Government Contingencies, and labourers and mechanics) be paid on pay-lists certified by the Auditor General before payment."

There are several departmental employees whose names are not so included in the monthly pay-lists to be certified here. Instances, Messrs. Godwin, Robinson, Bedard, Scrim, Fraser, Boyer.

Please instruct that their pay for November and subsequent months be made in the manner prescribed by the above-quoted Order in Council.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

## Absence of Temporary Employees.

AUDIT OFFICE, OTTAWA, Aug. 1, 1899.

SIR,—At the time the Order in Council of October 20, 1892, was passed, giving three weeks' annual leave of absence to temporary clerks, I had a doubt as to the power of Council to pay temporaries for anything but services, owing to the lack of specific statutory authority such as is provided for permanent officers.

No stand was taken at that time, however, probably in view of the fact that whatever injury might arise was at least limited by the fixing of a period beyond which absence was not to be paid.

The case of Dr. St. Jean, however, calls for some new arrangement. This gentleman was appointed August 11, 1897, and attended his office until Dec. 23, 1898, after which date his record is as follows:—

1898: Dec. 24 to 31: On leave, 8d. at \$3.....	\$24
1899: Jan. 1 to 7: Sick, 7d. at \$3.....	21
1899: Jan. 8 to 14: On leave, 7d. at \$3.....	21
1899: Jan. 15 to 31: At office.	
1899: Feb. 1 to 14: On leave, 14d. at \$3.....	42
1899: Feb. 15 to 21: Sick, 7d. at \$3.....	21
1899: Feb. 22 to May 21: Leave by O.C., 89d. at \$3.....	267
	\$396

And there is now an Order in Council to give him another three months' leave, from May 21, or 92 days at \$3, making \$672 during absence. Dr. St. Jean's period of active work was only from Aug. 11, 1897, to Dec. 23, 1898, and from Jan. 15 to 31, 1899, or 517 days in all, making \$1,551. The absence granted is about 43 per cent of the time of attendance—a much more favourable settlement than would be allowed to any permanent officer who had served for less than a year and a half.

I am, therefore, obliged to decline passing the application for payment of \$93 to Dr. St. Jean, for July, 1899.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, May 29, 1899.

SIR,—With reference to a deduction made in this office from a pay-list in favour of Albert Lane—said deduction representing his pay during a period of illness in excess of the usual two weeks:

This amount is held in suspense until an opportunity occurs of discussing the general question before the Public Accounts Committee.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Oct. 4, 1899.

SIR,—Referring to your letter of the 29th May last, regarding the deduction made from Mr. Albert Lane's pay, for a period of sickness in excess of the usual two weeks, and to your statement that the amount was being held in suspense until an opportunity occurred of discussing the general question before the Public Accounts Committee, I am directed to ask if you have yet reached a decision in the matter.

I am, sir, your obedient servant,

The Auditor General.

R. C. DESROCHERS, Asst. Sec

AUDIT OFFICE, OTTAWA, Oct. 26, 1899.

SIR,—Let me acknowledge receipt of a letter from your department, asking whether any progress has been made in discussing the cases of Albert Lane and other temporary employees, from whose salaries deductions have been made on account of protracted illness.

Since there is no legislation to sanction the payment of temporary employees during illness or vacation, they come under the general principle: "that the Executive can pay only for services rendered."

## SESSIONAL PAPER No. 1

As mentioned in my letter of Aug. 1, 1899, concerning Dr. St. Jean, the allowances of two and three weeks for illness and vacation respectively (fixed by the Order in Council of Oct. 20, 1892) were not objected to at that time, as it was thought they at least precluded the possibility of longer absences, such as had occurred previously.

If, however, these limits are not to be observed, I shall be obliged to recognize Actual Service only, until Parliament explicitly sanctions payment for Non-Service.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

### Accounts of Chief Engineer Coste.

AUDIT OFFICE, OTTAWA, April 27, 1899.

SIR,—In the course of conversation over his accounts for travelling expenses, Mr. Coste frequently referred to his intention of resigning from the public service, and I notice that he is described as the "Late Chief Engineer" in some proceedings in the House of Commons.

Please let me know at what date Mr. Coste resigned.

There is still an unsettled balance against Mr. Coste for living expenses, concerning which he promised to supply me with further information.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

### Final Estimate for Langevin Block.

AUDIT OFFICE, OTTAWA, Sep. 26, 1899.

SIR,—I have passed in full your application in favour of A. Charlebois for the final estimate on the Langevin Block, since the specific sum was voted by Parliament.

There is, however, one allowance to the contractor which should not be made a precedent for future expenditure. I refer to the item marked "25 per cent for contractors' profits" on work not done in exact accordance with the specification. The total of the items of this nature is \$8,437.63.

In many cases the variation from specification has been only slight, but full rates have been paid for the work as actually performed, in addition to profits on the work originally described. For instance, if a \$1,000 item were built in any way divergent from the original plan, Mr. Charlebois receives \$250 for the way in which it was not built, and \$1,000 for the way in which it was built, making two items of profit on one item of work.

Moreover, the description "25 per cent for profits" is misleading. Since the 25 per cent is taken on the gross amounts it is equivalent to 33½ per cent on the cost price. \$8,437.63 is 33½ per cent of \$25,312.89 cost price. If the intention was to allow 25 per cent on the cost, this would have been only \$6,328.22—a difference of \$2,109.41.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Oct. 23, 1899.

SIR,—*Re* the Auditor General's report of the 26th ult., as to the percentage allowed to A. Charlebois in his final estimate for the Langevin Block.

The following statement of the Auditor General, regarding the item of 25 per cent, is misleading: "In many cases the variation from specification has been only slight, but full rates have been paid for the work as actually performed, in addition to profits on the work originally described."

The contractor was allowed a percentage of work called for by the contract, but not executed. There were 18 items of deductions and only 4 of these can be classed as done by the Auditor General.

The percentage allowed was settled by the late chief architect and the contractor, prior to June, 1891, as can be seen by comparing the items of deductions returned in the final estimate, with exhibit 17 of the Select Standing Committee's report on the Langevin Block; with the exception of one item (in preparing the final estimate, it was found that a slight error had been made in this item), all the figures are the same.

As to the Auditor General's remarks of the percentage being taken on the gross amounts: I believe the system generally followed by contractors, and in this office, is to calculate the percentage on the gross amounts.

The Deputy Minister, Public Works.

D. EWART, Chief Architect.

## Souris Breakwater : Heney & Smith.

AUDIT OFFICE, OTTAWA, Oct. 6, 1899.

SIR,—I am passing your Application No. 39 for \$337.50 in favour of Heney & Smith, for balance of amended final estimate for work at Souris Breakwater, since the exact sum was voted by Parliament.

On page Q-122 of my report for 1897-98, I find that this sum was previously deducted as follows:—"Less, paid by Government for superintendence between March 1 and Aug. 31, 1897, 135 days at \$2.50, \$337.50."

Please let me have the subsequent information which convinced you that Messrs. Heney & Smith were not liable for this expense under their contract.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

## Over-Expenditure for Lighting Ottawa Buildings.

AUDIT OFFICE, OTTAWA, Feb. 6, 1899.

SIR,—I notice that "Ottawa Buildings, Lighting," was over-expended by \$192.98 at the end of December, and by \$356.95 at the end of January; or if the \$100 margin be subtracted, \$92.98 and \$256.95 respectively.

Please let me know what steps you contemplate taking to provide for this over-expenditure. The authority should have been obtained before drawing the cheques.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

## Coulange River Slide.

(Following discussion on page Q-283 of 1897-98.)

AUDIT OFFICE, OTTAWA, Jan. 11, 1899.

SIR,—I should be glad to know what steps you have taken or purpose taking to satisfy yourself of the reliability of the vouchers for this year's expenditure on the Ottawa River Works. I write this with reference to the evidence which was taken by me in the investigation on the charge for elm plank for the Coulange slide. You will recollect that I sent you a copy of the evidence and some comments by myself on the investigation.

Kindly let me hear from you at your early convenience.

I am, sir, your obedient servant,

The Minister of Public Works.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Feb. 9, 1899.

SIR,—Referring to your letter of the 11th ultimo in *re* Ottawa River Works, I am directed to state that the greatest care has been taken in connection with the expenditure on the works in question.

I am, sir, your obedient servant,

The Auditor General.

E. F. E. ROY, *Secretary*.

### Re Sale of Old Materials.

AUDIT OFFICE, OTTAWA, June 9, 1899.

SIR,—On your Revenue Return No. 5 the following deposits are entered:—

Proceeds of sale of old material, &c., Stony Creek.....	\$0 55
Tools, &c., Tynemouth Creek.....	1 00

I am returning the vouchers received in connection therewith.

At Stony Creek 9 articles were sold realizing \$5.55, and \$5 was paid to the auctioneer whose receipt is not furnished.

This question was considered in 1896, and it was then decided that resident engineers should in future sell small lots by private sale. (See Audit Report, 1895-96, pages Q-216 and 217.)

The account of Leonard Parker, foreman, of the sale at Tynemouth Creek, is as follows:—

Public Works Department in account with Leonard Parker.

To R. E. Lovatt, auctioneer .....	\$1 00
1 doz. shovels, self .....	2 00
Cash.....	1 00
	\$4 00
Materials sold .....	4 00

The second item of \$2 calls for some explanation.

I am, sir, your obedient servant,

The Secretary Public Works Dept.

J. L. McDougall, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, June 13, 1899.

SIR,—I have the honour to acknowledge the receipt of your letter dated the 9th instant, returning the vouchers *re* sale of materials at Stony Creek and Tynemouth Creek, N.B., which were inclosed in our Revenue Return No. 5, and asking to be supplied with certain explanations in connection with the matter.

I am, sir, your obedient servant,

The Auditor General.

R. C. DESROCHERS, Asst. Sec.

SESSIONAL PAPER No. 1

*Re Sale of Scrap Steel.*

AUDIT OFFICE, OTTAWA, Sept. 13, 1899.

SIR,—A deposit came to hand to-day covering the sale of scrap steel at Sorel in June last to the Syracuse Smelting Works, Montreal. The quantity sold was 98 tons 537 lbs. at \$5.50 per gross ton—less than  $\frac{1}{4}$  cent per lb. It is certified by James Howden that the above price is the highest that could be obtained.

I have to ask what was the procedure adopted in making this sale?

I may say that the Intercolonial Railway gets \$19 and \$20 per short ton for old rails, and \$12 for scrap steel.

I am, sir, your obedient servant,

The Secretary Public Works Dept.

J. L. McDOUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, Nov. 23, 1899.

SIR,—Having reference to your letter, dated 13th September last, asking for certain information with regard to the sale of some scrap steel at Sorel, I have the honour to forward to you, herein inclosed, copy of a letter on the matter from our Mr. Howden.

I am, sir, your obedient servant,

The Auditor General.

R. C. DESROCHERS, *Asst. Sec.*

SHIP YARD, SOREL, Sept. 25, 1899.

DEAR SIR,—I beg to acknowledge receipt of your letter, dated 21st instant, with letter of Auditor General *re* sale of steel scrap to the Syracuse Smelting Works, asking what was the procedure adopted in making this sale.

In reply I may say that we have been endeavouring, for several years, to sell this particular scrap, which consists mostly of solid cast steel buckets, averaging in weight about 1,800 to 2,000 lbs., and for which there are very few purchasers in the market, as you will see by the inclosed letter from Messrs. Sessenwein Bros., dated 7th December, 1896, offering us \$5 per gross ton, delivered on cars, which would have cost us about \$1 per ton for cartage and loading, leaving only \$4 net for the scrap. This, you will see by my inclosed letter, was not accepted.

In June, 1898, a similar offer was again made by Sessenwein Bros., for the same scrap, which letter has been mislaid, and the Syracuse Smelting Works having offered \$5.50 per gross ton in our yard, it was accepted as being the highest price obtainable for that class of material.

For your information, I may also state that we utilize all the best wrought iron and steel scrap we produce in our works here.

I am, sir, your obedient servant,

The Chief Engineer Public Works Dept.

JAMES HOWDEN, *Supt.*

*Re Slide and Boom Dues, Newcastle District.*

AUDIT OFFICE, OTTAWA, Jan. 21, 1899.

SIR,—On the statement of arrears due for slide and booms received from you yesterday, there still appears \$1,846.57 against the Rathbun Co. This is the balance that remained unpaid of the dues of 1893, and against it the company claimed a contra account of \$985.78, leaving a balance due of \$860.79. I understood from the Minister and yourself that the arrears of 1893 would be settled by a payment of this balance, and accordingly I deducted, with your concurrence, that amount from a payment due the Rathbun Co. by the Department of Railways and Canals, and placed it to the credit of slide and boom dues.

Consequently, it would be incorrect to still publish the Rathbun Co. as indebted for \$1,846.57, and I am striking that amount out. At the same time, as they have likely continued in the lumbering business, they are yet in arrears for all the dues accrued since 1893. I have to ask for a statement of all the dues in arrears at the Newcastle district works up to June 30 last.

I am, sir, your obedient servant,

The Secretary Public Works Dept.

J. L. McDOUGALL, A.G.

AUDIT OFFICE, OTTAWA, May 1, 1899.

SIR,—Acting on information received from your department, that a settlement had been made with the Rathbun Co. fixing a balance of \$860.79 due by that company for slide and boom dues—Newcastle district—I retained that amount out of a payment due them by the Railways and Canals Department, and placed it to the credit of the slides and booms revenue.

I understood at the time that an Order in Council would be asked for confirming this agreement, but so far I have not received a copy of any such order.

I do not find that anything further has since come to account in payment of the other arrears due for tolls at these works.

I shall be glad to hear from you in reference thereto.

I am, sir, your obedient servant,

The Secretary Public Works Dept.

J. L. McDUGALL, A.G.

DEPT. OF PUBLIC WORKS, OTTAWA, May 3, 1899.

SIR,—I have the honour to acknowledge the receipt of your letter dated the 1st instant, applying for information *re* arrears due by the Rathbun Co. for slide and boom dues, Newcastle district.

I am, sir, your obedient servant,

The Auditor General.

R. C. DESROCHERS, *Asst. Sec.*

AUDIT OFFICE, OTTAWA, Nov. 25, 1899.

SIR,—I wrote you April 6, 1898, inclosing copy of correspondence with the Department of Public Works in reference to the non-payment of the slide and boom dues at the Newcastle district works.

I wrote you again on this subject November 3, 1898.

I have not heard from you what action, if any, was taken by the Treasury Board in reference thereto.

The facts may again be shortly stated:—(1.) Part of the dues of the season of 1893 are yet unpaid ; (2.) No revenue has come to account from these works for the seasons of 1894, 1895, 1896, 1897, 1898 and 1899 ; (3.) The expenditure in connection with these works for staff and repairs has been as follows:—

Year.	Staff.	Repairs.
1893-94 .....	\$2,116 17	\$5,127 11
1894-95 .....	2,023 25	5,170 29
1895-96 .....	1,970 00	1,001 90
1896-97 .....	1,980 89	841 14
1897-98 .....	1,970 00	999 19
1898-99 .....	1,997 50	1,783 75
	<u>\$12,057 81</u>	<u>\$14,923 38</u>

In all \$26,981.19.

This is a matter which seems to call for immediate attention.

I am, sir, your obedient servant,

The Secretary, Treasury Board.

J. L. McDUGALL, A.G.

## SESSIONAL PAPER No. 1

Arrears of Slide and Boom Dues.		§ cts.	Arrears of Slide and Boom—Con.		§ cts.

NOTE.—In addition to the above there are also in arrears the dues accrued in the Newcastle District in 1894, 1895, 1896, 1897, 1898 and 1899, none of which have been paid.

(a) Insolvent. (b) Chaudiere boomage. (c) Have counter claims. (d) Retained for account due. (e) Overcharges and in dispute. (f) Claims part as an overcharge.

## Re Arrears Due.

AUDIT OFFICE, OTTAWA, Sept. 23, 1899.

SIR,—The Public Works portion of the report will soon be ready for the printers, and to complete the revenue part of it, the statement of arrears due, asked for August 16th last, is needed. I have to ask you to have this statement forwarded as soon as possible.

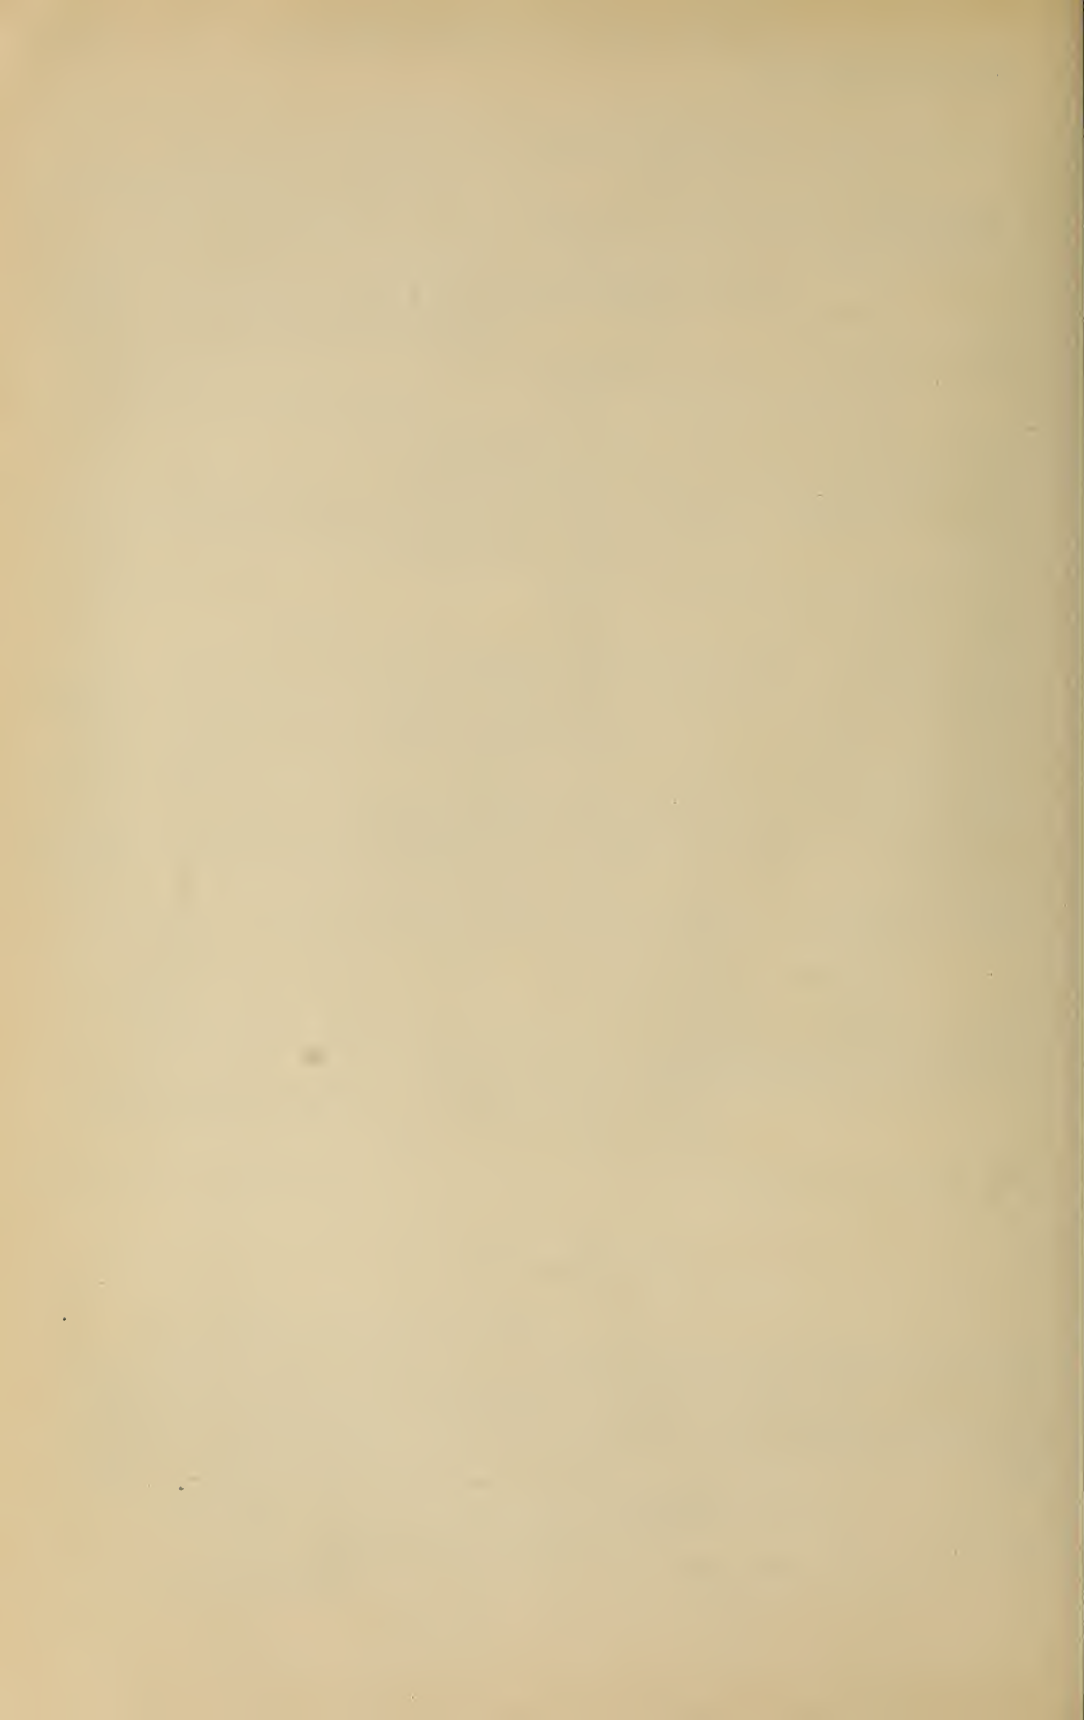

I may call your attention to the fact that the arrears due at the Newcastle district as furnished in previous years, only covered the arrears of 1893, omitting all the dues accrued since, none of which have been paid. The statement this year should be complete.

A statement should also be furnished of all advances not fully accounted for.

I am, sir, your obedient servant,

The Secretary Public Works Dept.

J. L. McDOUGALL, A.G.
